

## Request Dietary Supplement Information Brochures from the United States Pharmacopeia

Dear Healthcare Professional:

As a public health service, the United States Pharmacopeia (USP) provides free brochures with important information on choosing dietary supplements. We encourage you to distribute these brochures to your patients and clients. To request brochures (limit quantity to 250), visit [www.uspverified.org](http://www.uspverified.org), e-mail [hwr@usp.org](mailto:hwr@usp.org), or call 301-816-8345.

USP independently tests and verifies the dietary supplements of manufacturers who sign up for its voluntary verification program. USP awards the “USP-Verified” mark to products that pass its rigorous tests and reviews.
