

USP Hosts Pharmacy Interns— On June 3, 2008, USP welcomed nine students interning at several national pharmacy associations located in the Washington, D.C. area – the American Pharmacists Association (APhA), American Society of Consultant Pharmacists (ASCP), the American Society of Health System Pharmacists (ASHSP), the National Association of Chain Drug Stores (NACDS) and the National Community Pharmacists Association (NCPA) – who joined USP’s summer interns for a Student Orientation session at USP. USP offers these monthly sessions to pharmacy students and others interested in learning more about USP’s mission and programs. Following the orientation, the interns went on a field trip to visit AMCP and APhA. USP thanks NCPA for coordinating the field trip and including USP.
