Indianapolis, IN

**Presentation:** Quality of Manufactured Medicines – New Compendial Initiatives  
Performance Based Monographs  
Wednesday, September 23, 2009; 10:30 a.m. to 12:30 p.m.

Timothy J. Wozniak, Ph.D. has over twenty-four years' experience in the pharmaceutical industry. He is a research fellow in the Analytical Sciences Research & Development at Eli Lilly, responsible for all aspects of development and registration for new drug products conducted at global sites. His research experience includes automation, analytical methods development, control strategy and standards setting, monograph development, and statistical experimental design.

He is the chairperson of the USP Monograph Development – Cold, Cough and Analgesics Expert Committee, and has served on the Executive Committee of the Council of Experts and the Reference Standard committee. He was involved in the definition of the AOAC ISO standard for analytical laboratory accreditation and several PhRMA Acceptable Analytical Practices. He received his B.S. in chemistry from the College of Wooster, Ph.D. in analytical chemistry from Indiana University and was a NRC Fellow at NIST.
