Global Education and Training

June 18, 2014
US Pharmacopeial Convention (USP) founded in 1820. USP is a scientific, nonprofit, nongovernmental, private, independent, and self-funded organization.

Headquartered in Rockville, MD; 700 employees; facilities in India, China, Switzerland, Brazil.
Global Education and Training (GET) was created in 2000, when the USP Board of Trustees passed a resolution for establishing training and education programs:

Establish education and training programs to support the appropriate use of U.S. Pharmacopeia and National Formulary standards and compendial methods.

Link with USP Strategic Plan Goal 1:

Assure the continued leadership of the U.S. Pharmacopeia (USP) and the National Formulary (NF)
29,000 Students
40 Countries
Key Characteristics of a Global Education and Training Course

- All content is created and taught by USP Subject Matter Experts – a combination of volunteers (leading experts in their field) and USP scientists who are the authors of the General Chapters and Monographs.

- USP has more than 1,000 volunteers worldwide. They are the leading experts in their respective field, and they are selected for their knowledge of a topic and their contributions to related standards-setting activities during their service at USP.

- All content is approved and reviewed for accuracy and quality by the USP Scientific Liaisons and Global Education and Training Liaisons.
Key Characteristics of a Global Education and Training Course

- Instructors are selected and approved by USP, and are infused with passion to teach

- Global Faculty Development Program includes a “train-the-trainer” focus so that local staff expertise can be tapped and utilized

- Public and private course offerings available
Course Categories

- Noncomplex Drug Substances, Products, and Excipients
- Biologics and Biotechnology
- Dietary Supplements and Food Ingredients
- Microbiology
- Compounding
- Quality Systems
- General Information and Methodologies
Global Education and Training Courses – Live Webinar

Live Webinar: Modernization of Organic Impurities Testing in USP Drug Substance and Drug Product Monographs
Proposed USP General Chapter <476> and Revised General Chapter <1086>

Learning Objectives

After taking this webinar, you will understand
- The rationale for the proposal of the two chapters: revised <1086> and new <476>
- The 2013 stakeholder survey results regarding this initiative
- The process followed by the Expert Panel to define content
- The general content of the related two chapters and how these two chapters align with ICH Q3A and Q3B
- The scope and the implementation plan for this modernization approach

Duration: 60 minutes
Location: Online
Format: Live Webinar
Date: July 22, 2014
11:30 a.m. to 12:30 p.m. EST
Fee: $150.00 (U.S.)
