

Dietary Supplements list of monographs prioritized for development

Sponsors needed to provide analytical methods and data and possibly samples for the below ingredients and finished products.

Non-Botanical Dietary Supplement Ingredients:

- Boron Citrate
- Boron Glycinate
- Collagen Type II
- Ferrous Glycinate
- Glucoronolactone
- Gamma amino butyric acid (GABA)
- Keratin
- Lactobacillus plantarum 299v
- Lutein esters
- Molybdenum Citrate
- Ornithine
- Pantethine
- Rice protein isolate
- Salmon Oil
- Sodium Molybdate
- Sodium Selenate
- Sodium Selenite
- Zeaxanthin preparation
- Zinc Chelate
- Zinc Glycinate

Non-Botanical Dosage Forms (Finished Dietary Supplements):

- Citrulline capsules
- Citrulline tablets
- Cyanocobalamin capsules
- Diosmin capsules
- Diosmin tablets
- Glucosamine, Chondroitin Sulfate Sodium tablets and capsules
- Lutein tablets
- Lycopene capsules
- Lycopene tablets
- Magnesium Citrate capsules
- Menaquinone 4 tablets or capsules
- Methylcobalamin orally disintegrating tablets
- Omega-3-Triglyceride chewable gels (gummies)
- Plant Sterol tablets
- S-Adenosyl-L-Methionine Disulfate Tosylate tablets
- Thiamine Mononitrate tablets

- Zinc Oxide tablets
